HTML5, CSS, CSS Bulma, JavaScript, jQuery, Node.js, React, Express.js, Sequelize, SQL, NoSQL, MongoDB, and GraphQL.

PROJECTS

Extension-Pass

Github Repository = <https://github.com/Andrewy2416/extension-pass>

Deployed Application = <https://whispering-plains-41505.herokuapp.com/>

- Worked in a team of 4 to create a travel blog with full-stack functionality. Liking and reacting to user-posts are some of the features.
- Responsible for using Express.js framework to build the backend, Sequelize to manage MySQL Database, and debugging code.
- **Technologies Used:** Handlebars.js for client-side, CSS Bulma, Javascript, Node.js, MySQL, Sequelize, Express.js, Dotenv, and Bcrypt.

Passport-Extension

Github Repository = <https://github.com/Andrewy2416/Passport-Extension-2416>

Deployed Application = <https://secret-springs-97491.herokuapp.com/>

- Worked in a team of 3 to create an application with the MERN stack. Some features of the site include an API that shows the timezone of the location that was traveled to.
- Responsible for creating queries and mutations for GraphQL, connecting to MongoDB to retrieve data through models, and using React to create the client-side and styling it with Bulma CSS.
- **Technologies Used:** MongoDB, Express.js, React, Node.js, CSS Bulma, Javascript, Apollo Server/Client, Atlas, and JSON Web Tokens.

React Portfolio

Github Repository = <https://github.com/Andrewy2416/professional-portfolio>

Deployed Application = <https://react-portfolio2416.herokuapp.com/>

- Professional profile that was created using React to display work experience and projects that shows use of multiple technologies.
- Responsible for creating a brand new app through React and styling it with CSS.
- **Technologies Used:** React, Javascript, and CSS
